

SPOG Open House at the Bergen Community Centre

“When the Oilpatch Comes to your Backyard”

Special Guest Speakers:

Mary Griffiths: The Pembina Institute
Author of “When the Oilpatch Comes to Your Backyard”.
&
Kevin Warren: Parkland Air Management Zone
“Air Quality Within Parkland Air Shed”

Dear SPOG member Companies:

Plans are underway for SPOG’s open house scheduled **March 30th** at the Bergen Community Centre. We invite all Oil and Gas Companies to participate but especially those active in the Bergen area. The purpose of the evening is to inform the community who are their Industry Neighbour’s and what activities are going on or being proposed in Bergen.

- Doors open for set-up @ 12:00 pm.
 - Doors open to the public from 4-9pm.
 - Supper 5:00 – 6:30pm, Beef on a bun, served by Bergen Ladies.
 - Guest speakers – 6:30 – 7:30pm
 - Company updates – 7:30pm, 5-10 minutes to formally introduce and provide update
- ⇒ Facilitator - Gerald Ingeveld, Bergen Community Representative for SPOG and Community Affairs Co-Chairman

We are gearing this event to ensure companies ample opportunity for more personal interaction with residents at their booths.

A New Development Committee for the Bergen Community may become a topic as oil and gas activity has increased drastically in the area. A New Development committee would act as an information liaison between members of the community and industry and would have information on the activity in the Bergen area.

SPOG needs to know if your company would like to participate and who we should be in contact with for planning. Please RSVP by March 15th, the open house will be an agenda item at the March 8th Community Affairs meeting.

Sincerely,
Janet Marr
SPOG Administrator
